Remaining monies will go towards the final. Each elimination for the filly division will race for \$10,000. Monies for the eliminations to be provided from the total amount paid in the Renaissance Filly Pace No. 4. Remaining monies will go towards the final. Such elimination races will be held as provided below:

If the number of horses declared in requires more than one (1) trailing horse in the second tier, but not enough to split into eliminations of at least six (6) separate pari-mutuel betting interests in each of the two eliminations, that race will be held with a single elimination heat to "qualify" only enough horses that can be accommodated by the number of positions in the front tier of the starting gate as follows:

From the other declared horses, those with the least total earnings in the period from January 1 of that year up to time of declaration, will be selected to race in a single elimination field with no more starters than can score in a single tier with no trailers. Money earnings for races outside the U.S. will be calculated at the exchange rate for U.S. dollars as determined by the United States Trotting Association.

The remaining declared horses, if any (i.e. those with the higher money earnings that cannot be accommodated in the front tier of the elimination field), may elect to automatically advance to the Final. If any of the higher money earners, as determined above, elect instead to race in the elimination, other declared horses, in preference of the greatest earnings, may be selected to automatically advance to the Final. If no horses elect to advance to the final, that elimination will be conducted with trailers.
